WILL'S CATALOGUE

For 1896

Of North Western Grown
Pested Seed.

Hardy Forest and Fruit Trees,
AND SMALL FRUITS.

OSCAR H. WILL & CO.,
SEED-GROWERS,
BISMARCK, NORTH DAKOTA.

Here we are with our Thirteenth Annual Catalogue of **Northwestern Grown Tested Seeds, Trees and Plants for 1896**. We offer you nothing but the **Earliest, Hardest and Best**, nothing that you will have to experiment with as we have already done so before putting the article on the market. We send out nothing with uncertain germinating powers as all things are carefully tested before shipping season begins. We do not have an immense stock of old truck coming back to us each year as we do no "commission" business, such as is conducted by many seed merchants, our stock is sold outright to those who wish to buy. Unlike nearly all other seed houses we do not seek to increase our business to such proportions as to be unable to attend the important points personally but rather to do a moderate amount of business and in such a manner as to please and satisfy our customers, rather than simply to sell all the goods possible without regard to the knowledge of its quality, purity and results to the planter. There are hundreds of contingencies continually arising to prevent the best seeds always giving satisfaction, such as planting too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroy the plants soon as or before they appear, wet weather, cold weather, frosts, chemical changes in the seeds induced by temperature, etc., it is therefore impracticable to guarantee seeds under all circumstances. We therefore desire it understood that we give no warrantee expressed or implied and will in no way become responsible for the crop, but in case they fail to grow for any cause whatever when tested by the purchaser, we will refill the order free of charge or give value in others. In ordering goods you are at liberty to ask any question you desire and if we can answer intelligently, shall be pleased to do so. We are willing to give our patrons the benefit of our long practical experience which has been in many instances very expensive. We desire to call particular attention to the many valuable introductions which we have made and brought to the highest possible standard of perfection, among which are **Improved Beet, Rocky Mountain Squash, First-of-All Peas, Early Dakota Sugar Corn, Gehu Improved Pride of Dakota, and Northwestern Dent Field Corn**. The fields of Gehu Corn the past year have been simply wonderful and still holds first place as being the earliest corn on earth. Please notice also our list of native **Forest Trees and Tree Seeds** and small fruits. **Cur. rants, Gooseberries and Raspberries** are perfectly hardy and produce abundant crops.

Sign Your Name and Give Plain Address and Shipping Directions. Every year we receive orders with no signature, often with large sums of money, most of which we are able to trace, but often with much trouble and delay.

HOW TO SEND MONEY.

Money can be sent safely either by **Postoffice Order, Bank Draft, Express or Registered Letter**. If your order amounts to one dollar or upwards, always send by one of the above methods, at our risk and expense.

We are responsible only for the safe receipt of remittances by the above methods. **We do not guarantee** against loss of currency or stamps sent in ordinary letters.

Every postmaster is obliged by law to register a letter on payment of eight cents, and then you will receive our receipt for the letter by return mail. We accept **Postage Stamps** the same as cash for small sums.

SEEDS POSTPAID BY MAIL.

Remember that our prices in catalogue **Include Payment of Postage** by us on all seeds ordered by the **Packet, Ounce, Pound, Pint or Quart**, except otherwise noted. **Deduct Eight Cents per Pound and Fifteen Cents per Quart on Seeds Ordered by Express or Freight.**

SEEDS SENT BY EXPRESS OR FREIGHT

MEANS: That we deliver the seeds to the express or railroad company in Bismarck. The purchaser pays all transportation charges on receipt of goods. **No Charge for bags or boxes containing trees or seeds from this Catalogue.**

WARRANTY.

We test all Seeds before sending them out, but in case they fail to grow when tested by purchaser, we will replace them or give values in others, but can in no manner warrant the crop or be responsible for other failures.

Discounts on Seeds in Packets.

Purchaser can select seeds in packets only, to the value of \$1.50 for each \$1.00 remittance. This offer positively does not apply to seeds by the ounce, pound or quart.

Special Prices.

Market gardeners and others who buy large quantities of seeds will save money by writing for special prices.

Address all Orders to Oscar H. Will & Co., Bismarck, North Dakota.

OSCAR H. WILL & CO.'S Northwestern Grown Tested Seeds.

Prices in the following list include Postage, which we will prepay on all seeds by the packet ounce, pound; pint and quart. Purchasers must always add 10 cents per quart on Onion Sets sent by mail. If seeds are ordered by express or freight, deduct 8c. per pound and 15c. per quart from list price.

Asparagus.

CONOVER'S COLOSSAL. An old, well-known sort
Pkt 5c; oz. 10c.

Beans—(Bush.)

IMPROVED GOLDEN WAX. One of the best dwarf beans grown; pods are large, long, brittle and entirely stringless, of a rich, golden wax color, and six days earlier than the ordinary wax; very fine both as a snap bean and a shell bean for winter use. Pkt. 5c; qt. 40c.

EARLY GOLDEN EYED WAX. Superior to any Wax Bean ever offered. It is earlier, vigorous, copious bearer, tender and rich, and has never been known to rust or spot. Pkt. 5c; qt. 45c.

HENDERSON'S BUSH LIMA. Grows without the aid of sticks or poles, in compact bush form, about 18 inches high, and produces enormous crops of delicious Lima Beans, which can be as easily gathered as the common garden Bush Beans. Is at least two weeks earlier than any of the climbing Limas. Per. pkt. 5c; 6 pkts. 25c; qt. 50c.

GERMAN BLACK WAX. One of the best varieties; delicious and productive. Pkt. 5c; qt. 45c.

WHITE WAX. Pods yellow and of good quality; white seed. Pkt. 5c; qt. 45c.

WHITE NAVY. Pkt. 5c; qt. 35c; peck \$1.00; bu. \$4.00.

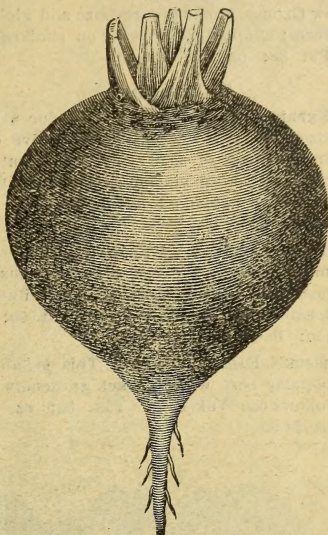

WHITE WONDER. Pkt. 5c; qt. 35c; peck \$1.00; bu. \$4.00.

GREAT NORTHERN. (See last page cover.)

Beans—(Pole.)

KING OF THE GARDEN LIMA. A most vigorous grower producing pods of enormous size and of superior quality. Pkt. 5c; qt. 40c.

Beet.

WILL'S IMPROVED BLOOD TURNIP. The blood turnip beet is known the world over as a most desirable variety, and there are any number of strains, good, bad and indifferent. Having grown what we consider the most desirable and carefully selected of all these various stocks, we have for several years been supplying it to thousands of our customers to their entire satisfaction. It is nearly as early as the Egyptian, but surpasses the latter variety in flavor. Color, a rich, dark red; roots, fine grained, globular-shaped, with small top. Free from side or fibrous roots, always remarkably smooth. Excellent for forcing and a very superior keeper, thus making it also desirable for winter use. Cooks sweet, tender and crisp, and in every way may be considered the standard sort for the market and home gardener. Has made good crop 7 weeks from sowing. Pkt. 5c; oz. 10c; lb. 75c.

ECLIPSE One of the best beets in cultivation especially for market gardening. Pkt. 5c; oz. 10c; lb. 50c.

LONG BLOOD RED A popular winter sort. Pkt. 5c; oz. 10c; lb. 50c.

DEWING'S EARLY BLOOD TURNIP. A dark red, turnip shaped, with large top; flesh, carmine, red, sweet and good. Pkt 5c; oz. 10c; lb. 50c.

EDMUND'S IMPROVED TURNIP BLOOD. Pkt. 5c; oz. 10c; lb. 50c.

CHAMPION WHITE SUGAR. Pkt. 5c; oz. 10c; lb. 40c.

"Northwestern Dent" is the Earliest Dent Corn.

Beet—(Mangel Wurzel.)

GOLDEN GIANT.—See Third Page of Cover.

GOLDEN TANKARD. In color it is a deep yellow throughout. It is a heavy cropper and is considered indispensable by the best dairymen. It is also equal to the best variety for table use, being very sweet and tender. Pkt. 5c; oz. 7c; lb. 50c.

MAMMOTH LONG RED. A particularly fine stock of Mangel. The roots attain enormous size. Pkt. 3c; oz. 7c; lb. 45c.

YELLOW GLOBE. Roots of large size and globular form; adapted for growing on shallow soil. Pkt. 3c; oz. 7c; lb. 45c.

Cabbage.

NEW EXPRESS. Earliest of all. Produces fair sized heads in eighty to eighty-five days from sowing of seed. An important acquisition for the market gardener and those who grow cabbage for early market. Pkt. 5c; oz. 10c; lb. \$1.50.

SELECTED EARLY JERSEY WAKEFIELD. Among its merits may be mentioned its large size of head, small outside foliage, and its uniformity in producing a crop. Pkt. 5c; oz. 15c; lb. \$1.50.

HENDERSON'S EARLY SUMMER. This is an old popular sort with market gardeners. It follows the Wakefield. Pkt. 5c; oz. 15c; lb. \$1.50

Cabbage—[Continued.]

FOTTLER'S IMPROVED BRUNSWICK. This has proved to be a most excellent second early variety. It is low on the stump-heads solid and compact. Pkt. 5c; oz. 10c; lb. \$1.40.

MARBLEHEAD MAMMOTH. This is one of the largest variety of the cabbage family in the world. Under high culture it is compact and hard. Its size is indeed mammoth. Pkt. 5c; oz. 25c; ¼ lb. 50c; lb. \$2.00.

RED DRUMHEAD. For pickling. Pkt. 5c; oz. 10c.

SURE HEAD. Always sure to head, very hard and firm, and of fine texture. It has comparatively few leaves, keeps well and is a good shipper. Pkt. 5c; oz. 15c; lb. \$1.50

WILL'S SELECTED PREMIUM FLAT DUTCH. Largest of the late varieties; remarkably hardy; a sure header, and for fall and winter, home or market use, has no superior, as it retains its freshness and flavor until late in the spring. This is a highly improved strain, the result of careful gathering from selected heads for consecutive years, and is of superior quality. Pkt. 5c; oz. 15c; lb. \$1.50.

Cauliflower.

LARGE EARLY ERFURT. This is a large and vigorous growing variety with large, white, firm heads. Pkt. 10c; oz. \$1.

EXTRA EARLY PARIS A standard early variety. Pkt. 5cts. oz. 50 c

Acme Flat Dutch Cabbage—Showing its even habit of growth.

ACME FLAT DUTCH CABBAGE.

THE ACME is entirely distinct from the *Premium Flat Dutch Cabbage*, and differs from all other strains of Late Flat Dutch in that it is *quicker growing* (earlier to mature) hence can be started later. It is extremely handsome in appearance, as indicated by the illustration above, which also shows its low-growing character—the stumps being very short. The well developed heads are *true to type* and uniform in color, which is an attractive bluish-green. The heads measure about thirteen inches across and weigh from ten to twelve pounds each. The *Acme comes very true*, and is a *sure header*; the heads are of good, marketable size, hard, solid, and fine-grained. A very superior Cabbage for autumn and winter use. Pkt. 5c; oz. 15c; lb. \$1.50.

“Great Northern” is the Earliest Field Bean on Earth.

Celery.

GOLDEN SELF BLANCHING. A distinct variety of sturdy habit and rich golden color. Pkt. 5c; oz. 25c.

WHITE PLUME. Inner stalk and leaves are naturally white, and do not require blanching by the old process. Pkt. 5c; oz. 25c.

CELERIAC, OR TURNIP ROOTED. Used principally for seasoning meats and soups. Pkt. 5c.

Sweet Corn.

THE CORY. Resembles the Marblehead in appearance, but the ears are much larger and much sweeter. Pkt. 5c; qt. 40c.

EARLY MINNESOTA. Pkt. 5c; qt. 35c; peck \$1.00.

STOWELL'S IMPROVED EVERGREEN. The standard late sort, remaining longer in the green state than any other. Pkt. 5c; qt. 35c; peck \$1.00.

EARLY DAKOTA. A white, sweet corn, the result of a careful selection for many years; as early as the Cory; ears much larger, and the sweetest of them all. Every stalk producing two ears, and many of them three. None better, and few equal for either market garden or private use. Pkt. 5c; qt. 40c; peck \$1.00; bu. \$3.00.

Carrot.

DANVERS HALF LONG. Stump rooted. A variety intermediate in size, of excellent quality, and a great yielder. Pkt. 5c; oz. 10c; lb. 75c.

GUERANDE, OR OX-HEART. A decided improvement in shape. It is intermediate between the Danvers Half Long and Short Horn varieties. Valuable for family and market gardens. Pkt. 5c; oz. 10c; lb. 80c.

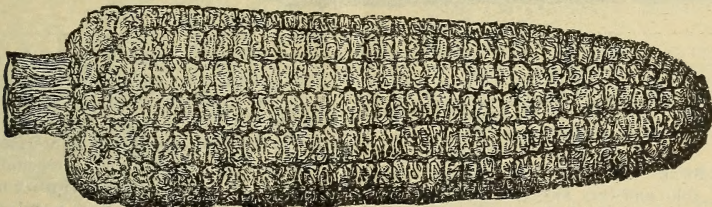

EARLY HORN. A favorite sort; much esteemed for early summer use. Pkt. 5c; oz. 10c; lb. 75c.

LONG ORANGE IMPROVED. The roots are of enormous size; a decided improvement on the old-fashioned orange sort. Pkt. 3c; oz. 7c; lb. 60c.

Popcorn.

QUEEN'S GOLDEN. A golden yellow variety of dwarf habit, produces from two to four ears on a stalk. The very best. Pkt. 5c; pint 20c; qt. 35c.

WHITE RICE. Well known old variety. Pkt. 5c; pt. 25c; qt. 40c.

EARLY DAKOTA SUGAR CORN.

Cucumber.

EARLY WHITE SPINE. An excellent variety for table; a great bearer; a favorite with market growers. Pkt. 5c; oz. 10c; lb. 60c.

EARLY CLUSTER. Good for table use but not adapted for pickling. Pkt. 5c; oz. 10c; lb. 60c.

EARLY FRAME. A good variety for pickling and table of medium size. Pkt. 5c; oz. 10c; lb. 60c.

BOSTON PICKLING. A distinctive variety which has attained a great degree of popularity as a pickle. Pkt. 5c; oz. 10c; lb. 60c.

IMPROVED LONG GREEN. Produced by selection from the Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts. Pkt. 5c; oz. 10c; lb. 50c.

"Early Dakota" Sweet Corn is the Best of All.

4 Oscar H. Will & Co.'s Northwestern Grown Tested Seeds.

Egg Plant.

NEW YORK IMPROVED The leading variety for market and table, fine quality. Pkt. 10c.

Endive.

GREEN CURLED. Leaves six or eight inches long, and finely cut and curled. Easily blanched and hardy. Pkt. 5c.

Lettuce.

HENDERSON'S NEW YORK. This is a remarkable summer lettuce, and is also well adapted to forcing. Plants grown in open ground reach the enormous weight of three and four pounds each, and solid as a cabbage head. Pkt. 5c; oz. 10c; lb. 80c.

EARLY TENNISBALL. Forms a close, hard head, the best forcing sort. Pkt. 5c; oz. 10c; lb. 80c.

Kohl Rabi.

EARLY WHITE VIENNA. Flesh white, tender and succulent when young. The best for table. Pkt. 5c.

Kale.

GREEN CURLED SCOTCH. A very useful variety, growing about 18 inches high. Pkt. 5c.

WHITE CABBAGE OR WHITE BUTTER. A favorite produces fine heads. Pkt. 5c; oz. 10c; lb. \$1.00.

CURLED SIMPSON. Leaves very large and form a compact mass rather than a distinct head; superior quality. Pkt. 5c; oz. 10c; lb. 80c.

HANSON. A superior curled heading variety, of large size, sweet, tender and crisp. Pkt. 5c. oz. 10c; lb. 80 c.

SENSATION. This remarkable new candidate appeals not only to the shrewd market gardener but to every owner of a home garden who may desire something extra choice in quality. It was distributed in a small way last season and many hundred of letters have been received from both market and family gardeners, who all agree in pronouncing it the best lettuce they have ever grown for forcing, and equally valuable for growing in the open ground during the hottest summer months. It is a beautiful light yellow-green color, leaves much blistered on the surface, and of very superior even quality. It has the peculiarity of forming a solid head, even before half-grown. It is the shyest seeder of any lettuce we have ever grown, and necessarily high in price. Pkt. 10c; oz. 40c; ¼ lb. \$1.00; \$3.00.

TOMHANNOCK Lettuce forms a beautiful plant. The leaves grow upright, the upper part of the outer leaves turning out very gracefully, and are handsomely wrinkled. It grows very quickly. Pkt. 5c; oz. 10c; lb. 80c.

Leek.

LARGE LONDON OR FLAG. Pkt. 5c.

Water Melon.

MOUNTAIN SWEET. Fruit, large and oblong; flesh, red, solid and very sweet; a delicious and very desirable standard variety. Pkt. 5c; oz. 10 c; lb 60c.

PEERLESS. The best melon for general use; rind thin, flesh bright scarlet solid in the center. Pkt. 5c; oz. 10 c; lb 60c.

CUBAN QUEEN One of the largest varieties; flesh bright red, tender and melting. Pkt. 5c; oz 10c; lb. 60c.

PHINNEY'S EARLY. A valuable variety for use at the north; hardy and a sure cropper; rind thin; flesh pink, very sweet. Pkt. 3c; oz. 7c; lb, 50c.

DIXIE. In this we have a new Watermelon of excellent merits, and we can recommend it to our customers as **best shipping melon** grown, being even larger, earlier and far more productive than the Kolb's Gem. It is of a very fine appearance, being darker than Kolb's Gem and more beautifully striped; it is longer, and extremely hardy, while its eating quality is unexcelled, being sweet, juicy and tender. Another very important point is its productiveness, having **6 to 8 large melons on a vine.** pkt. 5c; oz. 10c; lb. 60c.

Will's Sugar Water Melon, Earliest Known—See next page.

Water Melon.—[Continued.]

WILL'S SUGAR. A small melon, oval in shape, color mottled with dark and light green; flesh bright red, perfectly solid, very sweet, and of delicious flavor, often so full of saccharine that bits of dry pulp show a coating of sugar. Will mature anywhere in North

America south of the 50th parallel. If you want the most delicious water melon ever introduced do not fail to include Will's Sugar in your order. Pkt. 5c; oz. 7c. lb. 50c.

CITRON. A round handsome fruit of small size; used in making sweetmeats and preserves. Pkt. 5c; oz. 10c; lb. 60 c.

COLORADO PRESERVING MELON. Quite distinct from the ordinary preserving citron. It is immensely productive. Pkt. 5c; oz. 10c; lb. 60c.

Musk Melon.

EMERALD GEM. This is a small nutmeg melon, a very prolific bearer, sweet and delicious flavor. Pkt. 5c; oz. 10c; lb. 75c.

HACKENSACK. Deeply netted, very large. productive, of excellent flavor. Pkt. 5c; oz. 10c; lb. 60c.

Musk Melon.—[Continued.]

SKILLMAN'S NETTED. Form roundish oval; flesh deep green, sweet and richly perfumed; a delicious variety. Pkt. 5c; oz. 1c; lb. 60c.

GIANT CHICAGO MARKET. It is a type of our well-known Chicago Market Musk Melon, equal to it in quality, which we hold to be of the very sweetest, but much larger and very productive. It is decidedly ribbed extra well netted, with very thick green flesh. Pkt. 5cts. oz. 10c. lb. \$1.00

MILLER'S CREAM.

The finest flavored melon in cultivation and the best melon grown for the market gardener, for the trucker, for the farmer, or for the small planter. Without question the sweetest of all melons. The flesh is of a rich salmon color, very sweet and melting in quality, and is so very thick that the melon is almost solid, the seed cavity being remarkably small. Pkt. 5c oz. 10c; lb. 75c.

CROP OF 1895 AMERICAN CROWN ONION SEED.

Our aim is not how cheap but how good can we offer our customers Onion Seed. We repeat what we have said before that there are no seedsmen on earth who select their **Onion Seed** stock with as great personal care and attention. We are leaders in this article and offer no second quality cheap stock from foreign countries. If you want the best seed you have ever used send us your order.

GOLDEN QUEEN.

A very handsome yellow variety of vigorous habit producing large, showy onions of finest quality. **GOLDEN QUEEN** will produce more hard cash per acre than any other variety in cultivation. An excellent keeper. Pkt. 5c; oz. 15c; lb. \$2.00.

Prizetaker—[The Genuine.]

An excellent keeper, of finest flavor, handsome shape and enormous size. The **PRIZETAKER** grows always to a perfect globe shape with a bright straw colored skin. Pkt. 5c; oz. 15c; lb. \$2.00.

NEW QUEEN. A remarkable keeper and rapid grower. Sown in May will produce onions two inches in diameter before July 1st. Pkt. 5c; oz. 20c; lb. \$2.00.

LARGE RED WETHERSFIELD. The staple variety of the Northwest; of large size, deep in color; and an excellent keeper. Pkt. 5c; oz. 15c; lb. \$1.40.

EXTRA EARLY RED. Ripens ten days earlier than the above. An excellent variety. Is the main crop of the market gardeners, besides being very early they never run to **BIG NECK** as is apt to be the case with other varieties in cold wet seasons. Pkt. 5c; oz. 15c; lb. \$1.40.

YELLOW GLOBE DANVERS. A very excellent variety of globular shape; flesh white and mild flavored, skin brownish yellow. It is very productive and a good keeper. Pkt. 5c; oz. 15c; lb. \$1.40.

LARGE RED GLOBE. A fine globe-shaped onion of superior quality. Pkt. 5c; oz. 15c; lb. \$1.40.

WHITE PORTUGAL, OR SILVER SKIN. A handsome onion of mild flavor, but not a good keeper; extensively grown for pickling. Pkt. 10c; oz. 25c; lb. \$2.00.

WHITE GLOBE. Similar to the preceding in shape skin white, mild and pleasant in flavor, and keeps well. Pkt. 5c; oz. 25c; lb. \$2.00.

Golden Queen Onion is a Money Maker, Earliest Main Crop Onion Grown

Onion Sets.

Our crop of onion sets are well matured and uniform in size. Please observe that prices are very reasonable, quality considered, as compared with prices of other houses.

Add 10 cents per quart for postage.
YELLOW, Per qt. 20c; peck, \$1; bu. \$4.

Okra.

DWARF GREEN. Earliest and best for the North. Pkt. 5c.

Parsley.

MOSS CURLED. One of the handsomest. Pkt, 5c; oz, 10c.

Parsnip.

HOLLOW CROWN. One of the very best parsnips grown, either for stock or the table. Pkt. 5c; oz. 10c; lb. 60c.

IMPROVED GUERNSEY. A heavy cropper, roots very smooth, flesh fine grained, and of excellent quality; roots do not grow quite as long as the Hollow Crown, but are of greater diameter and more easily gathered. Pkt. 5c; oz. 10c; lb. 60c.

Pumpkin.

CONNECTICUT FIELD. Pkt. 3c; oz. 7c; lb. 35c.

SWEET SUGAR. One of the best for table. Pkt. 5c; oz. 15c; lb. 75c.

SWEET POTATO. A general favorite wherever known. If you want the best pumpkin known for cooking purposes, try the Tennessee Sweet Potato. Pkt. 5c; oz. 10c; lb. \$1.00.

GOLDEN OBLONG. This pumpkin is thoroughly established, distinct from all other varieties in cultivation, and its fine quality, good keeping qualities and convenient size make it one of, if not the very best of all for pumpkin pies. Pkt. 5c; oz. 10c; lb. 80c.

OBLONG PUMPKIN.

Pepper.

RUBY KING. Pkt. 5c.

LARGE BELL, OR BULL NOSE. An early variety of mild flavor; rind thick and fleshy. Pkt. 5c; oz, 25c.

CAVENSE. Long, slender, pungent. Pkt. 5c; oz 25c.

GOLDEN DAWN. A magnificent yellow pepper of the Bell class, very productive. Pkt. 5c.

Northwestern Grown Seed Peas, Always Earliest and Best.

AMERICAN WONDER. A cross between the Champion and Little Gem types, a sufficient guarantee of its superior qualities; a most excellent pea; grows ten inches high. Pkt. 5c; qt. 50c.

Will's "First of All."

Has proved itself the earliest Pea in cultivation; besides being early it is wonderfully productive. It is also an even cropper; can be cleaned at two pickings. For succession sow a crop every two weeks from early spring until July or August and you will have Peas the whole season. Pkt. 5c; qt. 30c; peck \$1.

MCLEAN'S LITTLE GEM. A leading favorite for garden use; a green wrinkled pea, quite early, productive, flavor excellent, may be planted close, one foot high. Pkt. 5c; qt. 50c; peck, \$2.00.

BLUE PETER. Habit like Tom Thumb, but more robust, almost as dwarf, and immensely productive. Pkt. 5c; qt. 50c.

PRINCE OF WALES. (See third page of cover.)

TELEPHONE. This strong grown, sweet, wrinkled pea is driving out of the local market the common kinds of early hard peas, owing to its strong growth, large handsome, well filled pods, and very fine table quality. Pkt. 5c; qt. 50c.

YORKSHIRE HERO. Unsurpassed for sweetness and delicious flavor. Pkt. 5c; qt. 40c; peck, \$1.50.

CHAMPION OF ENGLAND. A variety possessing merit of high order. Pkt. 5c; qt. 40c; peck, \$1.00.

BLISS EVERBEARING. Pods three or four inches in length, containing six or seven rich, marrowy and sugary wrinkled peas of rare excellence. As indicated by the name, it is almost a perpetual bearer. Pkt. 5c; qt. 40c; peck, \$2.00.

WHITE MARROWFAT. A favorite marrow sort. Qt. 35c; peck, \$1 25; bu. \$3.00.

BLACK-EYED MARROWFAT. This, as well as the preceding, is extensively grown as a field pea, hardy and productive. Qt. 35c; peck, \$1.25; bu. \$3.00.

Read carefully Second Page of cover before ordering.

Radish.

Model Box Radish.

This is the earliest and best White Radish for either the home or market gardener. Its handsome form is well shown in the photograph above. It is equally valuable for forcing or growing in open ground at any season of the year. Pkt. 10c; oz. 15c; lb. \$1.40.

CHARTIER. A very handsome rose-colored radish tapering to white near the tip. It is of good size, very tender and remarkably free from pith. It remains in eating order a long time. Pkt. 5c; oz. 10c; lb. 60c.

WHITE STRASBURG. It is one of the quickest growing of all radishes, both skin and flesh pure white. Pkt. 5c; oz. 10c; lb. 65c.

LONG SCARLET SHORT TOP. The standard variety. Pkt. 5c; oz. 10c; lb. 60c.

SCARLET TURNIP. Excellent for summer use. Pkt. 5c; oz. 10c; lb. 60c.

FRENCH BREAKFAST. Quick growth, very mild and tender. Pkt. 5c; oz. 10c; lb. 60c.

WHITE TURNIP. A summer variety of mild flavor. Pkt. 5c; oz. 10c; lb. 60c.

EARLIEST CARMINE.

The earliest forcing radish known. It succeeds in the open ground, and takes only 20 to 22 days to form. Pkt. 5c; oz. 10c. lb. 65c.

BLACK SPANISH WINTER. One of the latest, as well as the hardest of radishes, and is considered an excellent sort for winter use. Pkt. 5c; oz. 10c; lb. 65c.

CHINA ROSE WINTER. The best winter radish in cultivation. Pkt. 5c; oz. 10c; lb. 65c.

Will's "First of All" Pea is first in market and there are none just as good.

Rhubarb.—[Pie Plant.]

MONARCH. The most vigorous and productive variety known. The leaf stocks are very numerous, the longer ones being fifteen to twenty inches long and fully one and one-half inches wide. Pkt. 5c; oz. 15c.

Salsify, or Oyster Plant.

LONG SMOOTH WHITE. Pkt. 5c; oz. 10c; lb. \$1.00

SANDWICH ISLAND. A new improved type of this excellent vegetable. It produces roots of nearly double the size and weight of the old variety, and of equally good quality. Although of recent introduction, it has been extensively grown for the markets of the large cities, and in such instances has entirely superseded the old sort. Pkt. 5c; oz. 10c; lb. \$1.50.

Spinach.

ROUND THICK LEAF. Pkt. 5c; oz. 10c; lb. 40c.

LONG STANDING. Pkt. 5c; oz. 10c; lb. 40c.

Squash.

ROCKY MOUNTAIN. (See Third Page of Cover.)

WHITE BUSH SCALLOPED. An early market variety. Pkt. 5c; oz. 10c; lb. 75c.

GOLDEN CUSTARD. The color is a dark rich golden yellow, and for quality cannot be excelled. It grows in bush form, and is wonderfully productive. This is a novelty of real merit; try it. Pkt. 10c; oz. 25c; lb. 75c.

YELLOW BUSH SCALLOPED. A sub-variety of the white bush, principally differing in color. Pkt. 5c; oz. 10c. lb. 75c.

LONG WARTED, OR SUMMER CROOKNECK. Early, productive, and the best for summer use. Pkt. 5c; oz. 10c; lb. 75c.

BOSTON MARROW. A much esteemed variety, coming in about ten days later than the bush sorts; color, rich orange. Pkt. 5c; oz. 10c; lb. 75c.

HUBBARD. A favorite winter squash, and more largely grown as a late sort than any other; of large size, fle-h fine grained, dry and of excellent flavor. Pkt. 3c; oz. 7c; lb. 50c.

MARBLEHEAD. An excellent variety, color of shell blue. It is remarkable for its combination of sweetness, dryness and delicious flavor. Pkt. 5c; oz. 10c; lb. 75c.

PERFECT GEM. Small, flattened, slightly ribbed, of a creamy white color, flesh fine grained, dry, sweet, and of good flavor. Pkt. 3c; oz. 7c; lb. 60c.

Tomato.

STRAWBERRY OR GROUND CHERRY. Unequaled

for canning preserving and pies. Dried in sugar as raisins or figs, they are unexcelled. They have a strawberry flavor, and produce fruit in great abundance. In sections devoid of fruit, many esteem them highly. A great curiosity and sell well in market, Pkt. 10c.

Tomato.

New Golden Queen.

A fine new yellow sort, of first-class quality. It is solid, very smooth, free from ridges, large in size, ripens up evenly, and is very handsome; in fact, by far the most beautiful yellow variety ever sent out. The larger and riper fruits are frequently tinged with red at the blossom end. None is better for preserving or slicing. The handsome golden-yellow slices make a beautiful contrast in a dish with red tomatoes. It has very little acid and the quality is excellent. Try it. Pkt. 5c; oz. 15c. *;

PEAR SHAPED. Used for preserving and pickling. Pkt. 5c.

YELLOW PLUM. A beautiful variety, used principally for pickling. Pkt. 5c.

RED CHERRY. A small early variety, size and shape of cherry, for pickling. Pkt. 5c.

RED CURRANT. A small and pretty sort, grown for preserves. Pkt. 5c.

PEACH. Resembles a rich, well ripened peach in shape and appearance, seeming to have the very bloom or furze of the peach upon its surface. It is, by far, the most delicious tomato known, and its equal in delicacy and flavor does not exist in the tomato family. When two-thirds ripe it has the appearance of wax-work, and is often so taken. It is also very prolific; the largest vines we ever saw were of this variety and heavily loaded, with fruit, Pkt. 10c; 3 pkts, 25c.

LIVINGSTON'S ACME. Still holds its reputation of being the earliest large red tomato in cultivation, as well as one of the handsomest; Pkt. 5c; oz. 15c; lb. \$2.00.

NEW DWARF CHAMPION. Last season's trial convinces us that this is one of the most distinct and valuable tomatoes of recent introduction. It resembles no other variety, being of dwarf, stiff habit, so much so as to scarcely need any support. The foliage has a peculiar corrugated appearance, and is of a very dark green color. It is very early and wonderfully prolific. The fruit is of the rich red color; and, while of medium size, is perfectly round and smooth and contains so few seeds that it is really more "meaty" than many Tomatoes twice the size. Pkt. 5c; oz. 15c; lb. \$2.00.

Tobacco.

HAVANA, IMPORTED. Pkt. 5c; oz. 25c.

GENERAL GRANT. The earliest tobacco in cultivation, particularly adapted for growing in the Northern states. The leaf has extremely small veins of the finest texture, and very elastic. Pkt. 10c; oz. 25c.

Turnip.

EXTRA EARLY PURPLE TOP MUNICH. Must occupy the same place among turnips that the Eclipse variety does among the beet family—that of being the earliest of all. Pkt. 5c; oz. 10c; lb. 60c.

WHITE TOP STRAP LEAF. This and the preceding are the two best kinds for spring sowing and for garden culture. Pkt. 3c; oz. 7c; lb. 60c.

SWEET GERMAN. This celebrated turnip is white, sweet, a long keeper, and generally solid until mid-summer. It should be sowed as early as the Swedes. Pkt. 5c; oz. 10c; lb. 60c.

WHITE EGG. A very excellent variety, nearly oval, or egg-shaped; flesh firm and fine grained, and of snowy whiteness; particularly desirable for the table; can be sown as late as the middle of August. Pkt. 5c; oz. 10c; lb. 60c.

PURPLE TOP STRAP LEAF. Pkt. 3c; oz. 7c; lb. 50c.

EARLY FLAT DUTCH. An early garden variety resembling White Strap Leaf. Pkt. 5c; oz. 10c; lb. 50c.

Rutabaga, or Swedish Turnip.

OSCAR H. WILL'S IMPROVED PURPLE TOP YELLOW. It has proven itself to be the hardiest and most productive rutabaga in this section. Pkt. 5c; oz. 10c; lb. 75c.

WHITE SWEET. A large, white, solid Swede, sometimes called White Russian; also London Extra Swede. Pkt. 5c; oz. 10c; lb. 60c.

SHAMROCK. One of the finest Purple Top varieties in cultivation; grows with small top and very few leaves; an excellent keeper and good for stock and table use. Pkt. 3c; oz. 7c; lb. 50c.

CARTER'S IMPERIAL HARDY PURPLE TOP YELLOW. A most excellent sort either for table use or feeding stock. Flesh yellow, solid, firm, sweet, and rich. It is a hardy sort, yields heavily, with no tendency to long necks. Pkt. 3c; oz. 7c; lb. 50c.

Don't forget Monarch Swede Rutabaga, next page.

Monarch Swede.—[See Cut.]

A new and perfectly distinct variety of Swede. For EARLINESS, QUALITY and WEIGHT, we claim it superior to any variety in cultivation, producing from two to seven tons per acre more than any other Swede, whilst the large percentage of saccharine matter contained in the root makes it very palatable and nutritious to stock fed on it. "Monarch Swede" is of handsome shape and distinct appearance. Pkt. 5c; oz. 10c; lb. 60c.

Herbs.

Anise, Balm, Sweet Basil, Caraway, Coriander, Dill, Dandelion, Horehound, Hyssop, Lavender, Mustard, Rosemary, Fennel, Sweet Marjoram, Thyme, Saffron, Sage, Summer Savory, Catnip, Wormwood, 5c. each.

Grows exactly in size, color and shape of an egg; do not crack and are uninjured by cold or wet; they make the very best nest egg. Pkt. 10c.

Melon Peach.

The fruit grows on vines, the same as melons, are exactly the size, color and shape of an orange. Pkt. 10c.

Garden Lemon.

Fruit resembling in shape, size and color, the lemon. Pkt. 10c.

Will's Emerald Lawn Grass Mixture.

This is a mixture of choice grass prepared for this latitude. It makes a thick heavy turf by forming a compact growth of short varieties. These, following one another in rapid succession, preserving a rich green lawn throughout the entire season. Will make a beautiful lawn in six to eight weeks.

Sixteen pounds to the bushel.

Per pound 35c. prepaid,

By express or freight peck \$1.00, bu. \$4.00.

Will's Cream List of Flower Seeds.

ALL FLOWER SEEDS SENT BY MAIL, POSTPAID.

DWARF BOUQUET ASTER. Plants only 10 to 12 inches high, producing large, double flowers resembling chrysanthemums and valuable on account of profuse late flowering. Pkt. 10c.

Aster, finest mixed.....Pkt. 10c.
Amaranthus, tri-color..... 10c.
Ageratum, finest mixed..... 5c.

ALYSSUM SWEET. Hardy annual, flowering from early spring till killed by frost; and all winter in the green-house if sown in the fall. Pkt. 5c.

Antirrhinum, (Snap Dragon).....Pkt. 5c.
Balsam—French mixed..... 5c.
Balsam—Camelia flowered..... 10c.

BALOOON VINE. Remarkable for its inflated membranous character and sometimes called Love-in-a-Puff. The flowers are insignificant, but the plant is a rapid and graceful climber. Pkt. 5c.

BACHELOR'S BUTTON, DOUBLE. The flowers of this variety may, considering their form, be compared to those of the Gaillardia Lorenziana, the disk flowers having developed themselves into handsome globular flower heads of unique beauty. The mixture offered here not only contains the well-known varieties in white, pink, light blue, light and dark red, but also some quite new shades of colors, amongst which the dark red with light blue edges and the white stripped with red and blue. Pkt. 10c.

CANARY BIRD FLOWER. A beautiful climber the charming little canary colored blossom bearing a fancied resemblance to a bird with the wings half expanded. Pkt. 5c.

NEW FRENCH CANNA. The new French Cannas are continuous bloomers, producing their large showy flowers from early summer until late in autumn. The foliage is luxuriant and varied in color, and the plant dwarf in habit, averaging not over three or four feet in height. Their great merit, however, lies in the large size and dazzling hues of the flower. Pkt. 15c.

Canna, Indian Shot.....Pkt. 5c.
Candytuft—Mixed..... 5c.
Candytuft—White..... 5c.

EMPRESS COXCOMB. A very striking variety producing combs of colossal proportions. The color is a bright crimson, with a rich velvet like appearance; it is extremely double and well formed. Pkt. 10c.
Convolvulus (Minor Dwarf)..... 5c.

COBOEA SCANDENS. Although it does grandly outside, it is also a splendid house climber, and will do well running over windows in the house, and will reward the grower with the abundance of beautiful blossoms. In fact, it grows and flourishes anywhere. Pkt. 10c.

CYPRESS VINE. A most beautiful climber, with delicate, dark green, feathery foliage, and an abundance of bright star-shaped rose, scarlet and white blossoms, which in the bright sunshine present a mass of beauty. Planted by the side of a veranda, tree or stakes, and trained properly, there is nothing prettier. All colors, mixed, pkt. 5c.

NEW DWARF MARGARET CARNATION. Blooms the first year from seed. The plants are of dwarf compact and neat habit, branching closely above the ground, and do not require any support. They flower most abundantly, throughout the whole year. Eighty per cent. of the flowers are very double, never burst, and embrace a great variety of colors. But the greatest importance is the fact that the seedlings bloom when only three months old, and Carnation flowers can be had all summer and winter if consecutive sowings are made. Pkt. 10c.

DIANTHUS. (Chinese Pinks.) One of the most useful and desirable plants, and for beauty and variety of colors, and markings cannot be surpassed, ranging from pure white to the most delicate pink and glowing deep crimson. The mixture we offer is a selection from over twenty different strains, and cannot fail to give entire satisfaction. To be properly appreciated they should be seen growing as it is impossible in our limited space for description to convey in words any idea of their beauty; and in large beds you can hardly find two alike. Pkt. 5c.

Double Daisy.

Sow seed very early. The flowers are abundant in early spring, and may be made to flower later by the use of water. Plants can be removed safely even when in flowers. The plants should be about six inches apart when set. Choice mixed, per pkt. 10c.; 3 pkts. 25c.

Escholtzia.

California poppy. Hardy, annual, growing about one foot high, bearing a profusion of rich, yellow flowers, about two inches in diameter, making a blaze of color in the sunshine. Pkt. 5c.

"Cupid" Dwarf White Sweet Pea is the Greatest Novelty of the Age.

Forget-Me-Not (Myosotis)	Pkt. 5c.
Four O'Clock	5c.
Hollyhock, double	10c.
Ice Plant (Mesebryanthemum).....	10c.
Lobelia	10c.

GIANT MIMULUS. This magnificent strain of Mimulus is unequalled for beauty and size of its large and variously colored flowers, some beautifully spotted and others richly blotched with rose, carmine, crimson, etc. Makes beautiful specimens for pot culture, and is not difficult to grow. Pkt. 10c.

NEW SPIRAL MIGNONETTE. Seeds sown early in the garden will give flowers through the summer. Pkt. 5c.

Maurandya Vine	Pkt. 10c.
Morning Glory, Tall	5c.
Portulaca—Single, sometimes called Moss Rose	10c.
Portulaca—Double	25c.
Petunia—Double	10c.
“ Stripped and Blotched	10c.
“ Mixed	5c.

Bismarck Pansy.

An entirely distinct and beautiful race, which will recommend itself to all lovers of this popular flower. The plants are vigorous and compact in habit. The flowers are carried well above the foliage. They are of refined form and present a notable difference from those of all known faces, in being of a size hitherto quite unattained in this genus. The flowers are finely formed and the richest shades of color, and have given exceptionally favorable results. Price per pkt. 15c; 2 pkts. 25c.

PANSY—Good mixed. Pkt. 5c.

Sweet Peas.

Alba Magnifica—Pure white	Pkt. 5c.	oz. 15c.
Apple Blossom—Bright pink and blush	“ 5c.	“ 15c.
Blanche Ferry—Pink and white	“ 5c.	“ 15c.
Cardinal—Crimson scarlet	“ 5c.	“ 15c.
Delight—White crested with crimson	“ 5c.	“ 15c.
Duchess of Edinburg—Scarlet flushed with crimson	“ 5c.	“ 15c.
Monarch—Bronze, crimson and blue	10c.	“ 25c.
Orange Prince—Orange pink, flushed with scarlet	“ 5c.	“ 15c.
Painted Lady—Rosy, crimson and blush white	“ 5c.	“ 15c.
Purple Prince—Meroun shaded with bronze, purple, wing blue	“ 5c.	“ 15c.
Crown Prince of Prussia—Blush pink	“ 5c.	“ 15c.
LOTTIE ECKFORD—Flowers large, pure white edged with lavender blue	“ 5c.	“ 15c.

EMILY HENDERSON. A gloriously beautiful acquisition of American origin. Absolutely pure white, as clear as alabaster and as lustrous as satin. The flowers, of remarkable substance, are borne on long stiff peduncles, are extra large, with broad, standards that stand up boldly without reflex or curl. Pkt. 5c, oz. 15c.

IMPERIAL MIXED. If you want the finest Sweet Peas ever grown, you should give the imperial mixed a trial, and be convinced of their wonderful beauty. The flowers are of large size, and in colors surpass any other mixtures of Sweet Peas ever sent out, being rich and gorgeous, ranging from bright scarlet, carmine, maroon, rosy pink, purple, indigo blue, pure white, black stripped, laced and shade. Price per pkt. 5c; oz. 10c; lb. \$1.00.

A Pot-Plant of Cupid.—From a Photograph.

CUPID is the only dwarf Sweet Pea ever produced growing but five inches high, yet the tiny plant produces masses of perfectly formed blossoms of the purest white, the foliage is a rich dark green and the plant stands upright, having no tendency to trail or climb. Per pkt. 15c, 2½pkts. 25c.

Shirley Poppy.

It is perfectly hardy and flowers the first season from seed. The flowers are large, exceedingly graceful and elegant. The colors are pure, soft and varied, and range from blush-white, rose, delicate pink, and carmine, through innumerable tints to bright sparkling crimson. Pkt. 5c.

PHLOX DRUMMONDII GRANDIFLORA. [Superb Mixed.]—A magnificent new class, with flowers as large as those of the Perennial Phloxes. The colors we offer in our "Superb Mixture" are very positive and perfectly gorgeous in their brilliancy. For massing in groups or arranging in ribbon lines, there are no flowers obtained with so little care and expense, the colors ranging in every conceivable shade. Pkt. 5c.

PHLOX DRUMMONDII, common mixed. Pkt. 5c.

POPPY. Finest mixed double and single best ever offered, the most brilliant and also the most delicate tinted making a gorgeous display. Pkt. 5c.

VERBENA HYBRIDA GRANDIFLORA. The flowers are of gigantic size—the largest Verbena known—many single flowers being as large as a twenty-five cent piece, while the

Phlox Drummondii.
(Star of Queclinburg.)

This novelty is of an extraordinary character. The growth is dwarf, and the habit very compact. The pointed center teeth of the petals (five in number) are four or five times as large as the lateral ones and project beyond them like little spines. The flowers appear to have a star-like form, thus producing a most brilliant effect. Finest mixture of over 20 colors. Pkt. 5c.

clusters of bloom are magnificent, and the range of color more varied than any other mixture. Pkt. 10c.

SNOWDRIFT POPPY. Flowers pure white, very double, of large size and perfectly round. This is the very best double white variety yet offered. Pkt. 5c.

Sweet William. Pkt. 5c.

Tropaecolum, Nasturtium, tall. Pkt. 5c.

Tropaecolum, Empress of India. Pkt. 5c.

WILD CUCUMBER. A climber with green leaves and pretty white flowers and bud-like fruits, beset with deciduous barbed prickles. One of the best climbers for verandas, trellises, etc.; never suffers from the heat or being destroyed by insects like so many other good climbing plants, but retains its fresh color until in the autumn. Pkt. 5c; 6pkts. 25c.

Cupid Sweet Pea is the Only Dwarf Ever Produced.

Improved Pride of Dakota.

✻ CORN. ✻

Improved Pride of Dakota Corn is the result of careful selection during a period of 15 years, from the original Squaw or Ree Corn which has been grown in this locality by the Ree Indians for many generations, and up to the time of our first selections was a very insignificant grain of many colors, growing very close to the ground on a stalk about three feet in height. The first improvement was offered as "Improved Ree," and a later very marked improved strain as "Pride of Dakota," and now we offer the cream of all early varieties of white flint corn, "Improved Pride of Dakota," which will stand more hardship in the way of frost, heat and poor cultivation than any other variety. Ears 10 to 12 inches long; stalk six feet high, and two or three well-developed ears on each stalk. One of the great advantages of this corn it can be planted on new breaking by dropping in each third furrow and covering with the sod, planted in this manner it needs no cultivation whatever and will produce a good crop with no expense except for seed and harvesting. It can be planted as late as June 25th and mature a crop. Pkt. 5c; qt. 25c, postpaid; peck 50c; bu. \$1.50 by express or freight. Bags free.

Earliest Corn on Earth. See next page.

WILL'S GEHU CORN.

95 bushels of Flint Corn per acre is a Good Yield.

This is a hybrid flint corn of a beautiful bright glossy yellow color. We claim it to be the earliest valuable field corn in the world and superior to all other varieties of flint corn in cultivation. Grows about seven feet high ears two feet from the ground. It will yield from fifty to ninety five bushels per acre, and mature in sixty-five to seventy days. We have a fair supply of 1895 crop and have fixed the price within reach of all. Don't miss it. Pkt. 5c; pint 15c; qt. 25c. postpaid. peck 50c; bu. \$1.50, bags included.

A. E. Vrooman, of Arthur, Cass Co., N. D., writes under date of Oct. 18th, 1895, I have a fine ripe crop this year of 50 acres of Gehu corn which solves the question of its being the earliest corn I have seen in this vicinity, I consider it a sure cropper and can grow it every year that I can grow wheat.

Broom Corn.

IMPROVED EVERGREEN. The best for general cultivation; brush firm, of good length and a bright green color. Pound, 10c; peck, 90c; bu. \$2.50 by express or freight.

Will's Y. & W. Fodder Corn.

This corn is becoming a great favorite especially with dairymen as it has demonstrated the fact that it will produce more mature fodder than any other variety. To obtain best results, should be planted in drills 2 or 3 feet apart 1 to 2 bu. per acre and cut either for dry fodder or ensilage just as it is entering the glazing period which it does in from 60 to 70 days, grows about six feet high, qt. 25c. postpaid, by express or freight; qt 8c; pkt. 30c; bu. \$1.10; 2 bu. \$2.00.

Great Northern Field Bean is an Agricultural Wonder.

OSCAR H. WILL & CO.,

SEED GROWERS AND MERCHANTS,

BISMARCK, N. DAK.

Dwarf Essex Rape.

After the Corn is harvested and before winter sets in there is need of nutritious green fodder especially for sheep. Dwarf Essex Rape is easily grown and perfectly hardy and possesses remarkable fattening properties. One acre will pasture thirty-six head two months, and lambs will make a gain of 8 to 12 pounds per month. "They soon weigh like lead." Any corn soil will grow Rape; a drained swamp produces enormous growth. If soil is rich and clean sow broadcast, if not so clean sow in drills and cultivate as for corn. Rape is especially adapted for a catch crop, succeeding well when for any cause other crops have failed as it, like Turnip, makes its growth late in the season, can be sown on stubble, and will furnish excellent pasturage when much needed in the fall. When sown broadcast, use five pounds, and if in drills, two pounds per acre. Oz. 7c; lb. 30c. postpaid by express or freight; 10 lbs. \$1.50. Prices on larger lots given on application.

Sacaline-Polygonum Sachalinense.

Last year we advised our customers to try this new forage plant in a small way, only, and to those who have not tried it we offer the same advice this year. Results have been varied, good and poor being reported for same localities. We believe Sacaline to be a valuable forage plant for some localities and desire to have it thoroughly tested. Per pkt. 10c. Plants postpaid 15c each, by express 10c; 3 for 25c.

**Iron King
Seed Drill.**

This Drill is no longer an experiment. It combines all the good qualities of other garden Seed Drills, with many new and valuable improvements. You can accomplish with this Drill all that you can with any other. No other Drill combines all the following good qualities: Sowing seed in an exact line and at a uniform and any required depth; of governing the markers without changing position, and not tipping over when released by the operator; also sowing commercial fertilizer by simply a change of hoppers. Price \$9.00.

Davit Cultivator.

The Davit Onion Cultivator is light and durable. It is made of all iron and steel, except the handles, and has but few pieces, any of which can be duplicated at little expense. The wheels are sixteen inches in diameter, attached to an adjustable axle so as to regulate the depth of cultivation. \$7.00.

Little Gem Drill.....	\$ 5 00
New model, with Cut-off Drill.....	8 00
Gem Cultivator, Single Wheel.....	5 00
Planet, Jr., Hollow Steel Standard, combined Horse Hoe and Cultivator, with two levers and wheel 10 00	

**Clipper
Onion
Topper.**

Will do the work of from three to five men and leave the onions in best possible shape for market. Will top large and small onions equally well. Price \$35.00.

Iron King Seed Drill Has No Equal.

**MAMMOTH GOLDEN GIANT
MANCEL.**

**40
TONS
PER
ACRE.**

An improvement on all other **Yellow Mangels**, being of considerably greater size. Remarkably even in shape, rather elongated, of vigorous growth. Flesh white, firm and sweet. Excellent keeper, yields 40 tons per acre. Pkt. 5; oz. 10c; lb. 65c. postpaid. By express, lb. 50c; 5 lbs. 45c per lb.

Rocky Mountain Squash.

The best winter squash in cultivation; flesh solid and thick, orange in color, dry, and of peculiar rich flavor. It is a **sure crop** when all others fail. Matures earlier than Hubbard or Marblehead. Pkt. 5c; oz. 10 c; lb. 75c. postpaid.

PRINCE OF WALES PEA.

The Prince of Wales is what might properly be called a main crop Pea, coming in as it does about the time of the Telephone and the Strata-gem. Average height of vine, two feet; seeds very large, yellow, wrinkled. The pods are large, although not as large as the two sorts just named; but they will produce **more pods** from a given quantity of seed than any other sort, and will give a greater number of shelled Peas to the same number of pods, thus rendering it alike valuable to both the grower and the consumer. Try them! Pkt. 10c; qt. 45c; post-paid. By express, qt. 30c; peck, \$2.00.

NORTHWESTERN DENT CORN

EARLIEST

Dent Corn on Earth.

After many years of experimenting, great expense and much labor we have at last succeeded in securing a Dent Corn that will mature in North Dakota and the Northwest generally **Northwestern Dent** is the result of acclimation and careful selection and improvement of what was known in some localities as the "Butcher" corn. It follows the Gehu and Improved Pride of Dakota very closely. Grows **seven** to **eight** feet high and the ears fully **three** feet from the ground.

Northwestern Dent is no experiment having been thoroughly tested for the past four years in all sorts of seasons both wet and dry and hot and cold. It is what many Northwestern farmers have been looking for these many years. Don't miss it now you can get it. Sample packet 10c, qt 40c, postpaid, by Express or Freight, qt. 25c. pk. \$1 00; bu \$3 00; 2 bu bag \$5.00.

Great Northern Field Bean.

The comparative test of this truly wonderful Bean shows it to be ten days or more earlier than any other known variety. **Great Northern** has produced an enormous crop right by the side of many other varieties which were a very light yield. We do not claim the quality to be any better than other varieties, but its extreme earliness and productiveness together with its wonderful hardiness makes it, we believe, nothing short of an agricultural wonder, which should be

in the hands of every farmer. Do not fail to secure at least a small quantity. Per pkt 5c; qt. 25c postpaid; by Express or Freight, qt. 20c; pk. \$1 00; bu. \$3.00.
